# Sustainability Implementation Groups

Become a Triple Bottom Line Organization

# Sustainability Implementation (SI) Groups

## Why Join an SI Group:

Reduce costs, discover new revenue streams, motivate your employees and create a healthier environment both inside and outside your facility's walls. Learn a whole-systems design strategy what will transform your business, inspire innovation and improve the quality of life in NEO. Claim your place in the sustainability economy!

## What is an SI Group:

An action driven peer learning process that increases the rate you can learn new technologies and processes and the probability you will successfully implement what you learn. Develop relationships with other entrepreneurial leaders who will support you during and after the SI Group ends its journey.

"I greatly enjoyed and benefited from the SI group experience under Holly's leadership. Studying and sharing practical applications of the principles of sustainability within our businesses was exciting and rewarding. We continue to learn and implement triple bottom line opportunities in many areas of our operations."

– Bill Oatey, Oatey Co.

## Monthly Topics include:

- Principles of Sustainability – Natural Capitalism, Whole-Systems Design and more
- How to apply SI principles in facilities, processes, products, and markets
- Developing an implementation plan based on successful case stories
- How to engage your employees in the process

Curriculum for each SI Group will be custom designed to meet each group's needs.

## Who:

Entrepreneurial business leaders and their top management team (3–5 participants per organization) who want to learn how to implement sustainability principles in their buildings, processes, product, markets and company cultures.

## When:

- SI Group 2 – Underway, launched Aug 2006
- SI Group Introduction & Overview Workshops held quarterly.
  - ✦ Next 2-hour intro workshop to be scheduled
  - ✦ Intro workshop \$50/organization
- SI Group 3 – Will launch approx. March 2007
- Ideally 2–3 individuals from each organization will participate. SI Groups will meet monthly for 2–3 hours for 8 months.

## Where:

Each company in the SI Group will host a monthly meeting. Some tours may be provided.
